

Cobber Mini Front

TYPE	FRONT LIGHT
MAX LUMENS	120 LUMENS
WEIGHT	22g
SIZE	22 x 33 x 33 mm

Cobber Mini Rear

TYPE	REAR LIGHT
MAX LUMENS	75 LUMENS
WEIGHT	22g
SIZE	22 x 33 x 33 mm

The Knog Mini Cobber Front and Rear Bike Lights provide unparalleled 330 degrees of visibility in a compact design. The front light offers 120 lumens, ensuring strong illumination for urban and night rides, while the rear light offers 75 lumens for optimal rear visibility.

Both lights feature multiple modes, including steady and flashing settings, to suit various riding conditions. Charging via USB-C and an IP67 waterproof rating, these lights are built to perform reliably all year round.

Easy to mount, they are perfect for cyclists. Compact and durable, the Mini Cobber lights are a brilliant choice for cyclists seeking high-performance front and rear bike light.
