APPAREL SIZING

RACE FIT

On body, tight fit Race fit prioritizes a close stretch fit to enhance aerodynamic performance. The 3D design and stretch fabric allows the jersey and pant to stretch comfortably, accommodating slimline body protection and knee braces.

REGULAR FIT

A close, non-baggy fit. Drawing inspiration from competition, regular fit is close to body allowing for slim protectors. Pants are also close fit but with a strong stretch co-weave to accommodate knee braces

CLASSIC FIT

Straight fit designed for comfort. Looser than regular fit, the classic fit gives more space for upper body protection. Pants have slightly more room, ensuring a comfortable fit over knee braces.

HOW TO MEASURE

CHEST CIRCUMFERENCE

Wrap the tape measure around your chest. Position it so that the tape is horizontal to the ground, and falls just under your armpits.

WAIST CIRCUMFERENCE

Find the bottom of your ribs and the top of your hips. Place the tape measure around your middle at a point halfway between them (just above the belly button). Make sure it's pulled tight, but isn't digging into your skin. Breathe out naturally and take your measurement.

HIP CIRCUMFERENCE

Take a hip measurement. Stand with your feet directly beneath your hips and wrap the tape around the widest part of your hips and buttocks.

INSEAM LENGTH

Take a measuring tape and run it from just below your crotch to the bottom of your ankle.
